DESCRIPTION

A combination of synthetic detergents for multi-purpose cleaning of any surface not harmed by water. Safely and thoroughly performs all cleaning applications including removal of heavy grease and soil. Works equally well in hard or soft, hot or cold water. This moderate foam formula leaves a clean, film free surface, making it the ideal product for scrub and recoats. When used as directed, this all-purpose cleaner aggressively removes embedded soils and scuffs in the top layers of floor finish, and prepares the surface for re-coating with minimal rinsing required.
