

THE PURILUX - Breathe Easy. See Clearly.

CLEAN AIR WITH THE FLIP OF A SWITCH

- Every light fixture becomes its own silent and powerful air purifier.
- With its medical grade centrifugal fan and internal sanitizing UVC chamber, 99.99% of bacteria & viral pathogens, including COVID-19 are eliminated.

400 sq. ft. / 12,000 CUBIC ft. TREATMENT COVERAGE

- Capable of purifying up to 12,000 cubic feet of air per hour (212 cfm), equivalent to 3-5 air exchanges per 400 sq. ft.
- Makes it a perfect air purification tool for small to medium spaces.

UP TO 70% ENERGY SAVINGS OVER TRADITIONAL FIXTURES

- Each 2'x2' Purilux produces up to 4,000 lumens, while consuming only 25W, including air purification.
- Can be used to replace existing fixtures, or even as an add-on fixture to your space.

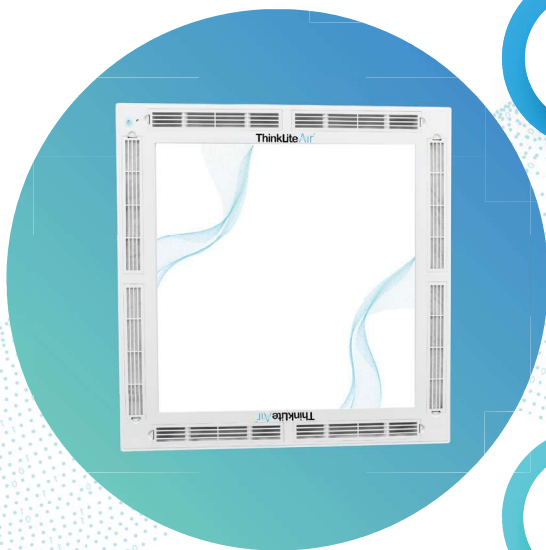

BUILT IN ADJUSTABLE LIGHT COLORS

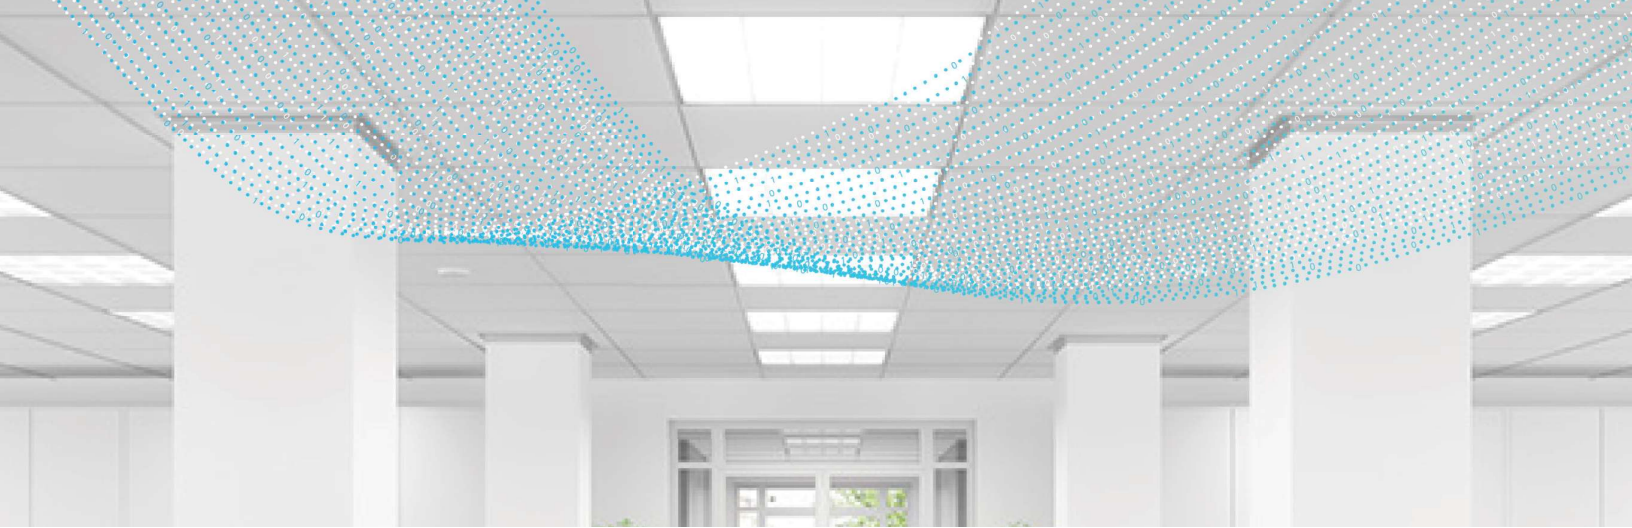

- Integrated options to customize ambient colors depending on the application: 3000K / 4000K / 5000K
- Physical appearance is identical to industry standard of LED panel fixtures.

SMART NETWORK CONTROLS AVAILABLE

- Control your device remotely using our smart network control platform.
- Schedule routines, wireless photo and motion sensors, dimming protocols, and energy management features remotely using your computer or smart device.

MEET YOUR PURILUX PRO

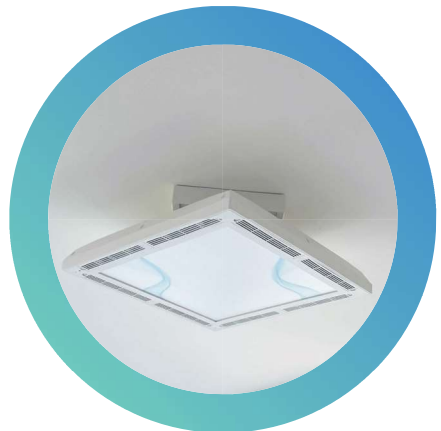

PROTECTION FROM BACTERIA & VIRUSES USING THE POWER OF LIGHT

How It Works

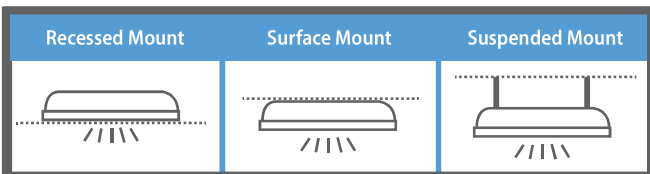

Air flows into the internal sanitizing UVC chamber and the built in HEPA and carbon filters team up with a medical grade centrifugal fan to clean the air. Equipped with an elaborate FDA approved filtration process, bacterial and viral pathogens are eliminated before the air is recirculated into your space.

Features

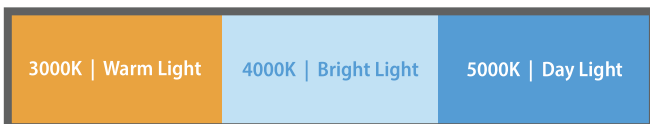

- Easy to install & fits like a 2x2 troffer/panel
- Vibration and impact resistant
- Quiet performance
- Instant On/Off
- Emergency Battery Backup option available
- 5-Year world wide warranty
- **Smart Remote Control allows for:**
 - **Dimming:** 25% / 50% / 75% / 100%
 - **Color selection:** 3000K / 4000K / 5000K
 - **Mode Selection:** Light + Purify / Purify Only / Light Only

Mounting Options

Built in Adjustable Light Colors

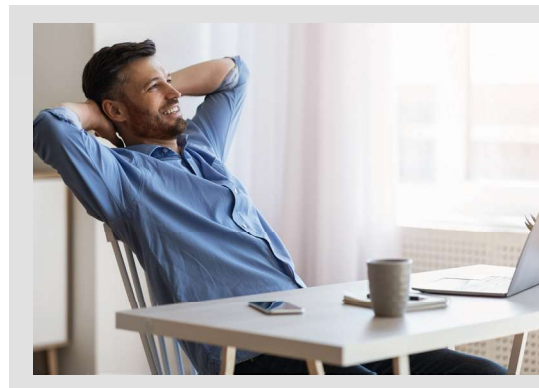

STATE-OF-THE-ART AIR MONITORING AND PURIFICATION

PROTECT YOUR BUILDING OCCUPANTS WITH THE RINGS OF DEFENSE

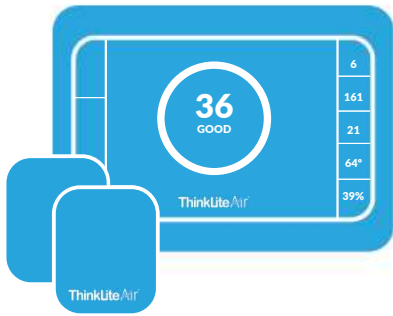

As many businesses begin to reopen their doors, we must think critically about the safety of the buildings where we live and work. Many studies have been done that show the quality of the air in office spaces as being one of the top concerns for employees.

REDUCE THE RISK OF EXPOSURE

In conjunction with standard cleaning protocols, building owners and facility managers are reducing the risk of exposure to harmful pathogens and other airborne particulate matter by incorporating ThinkLite Air's Rings of Defense air monitoring and purification technologies into commercial and retail buildings.

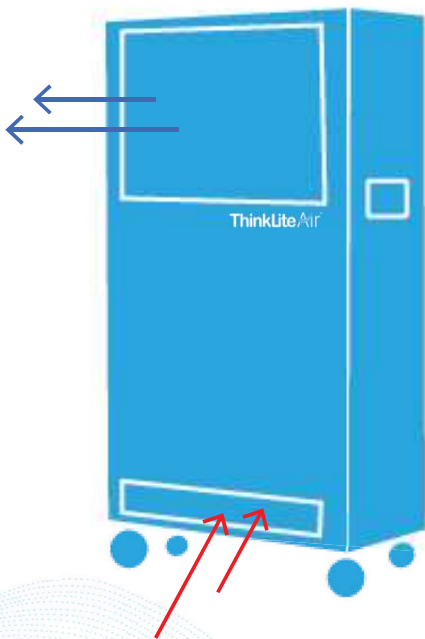

Commonly Purchased with the Purilux

Flair IAQ Monitor

The most advanced air monitor in the world, capable of measuring viral loads in real time, including harmful pathogens such as COVID, SARS, Pertussis, and Influenza. Each device monitors up to 5,000 sq. ft. and integrates with additional devices to be able to accurately cover large commercial spaces.

Icon Air Healer

Designed for allergen friendly and FDA regulated environments, each Icon purifies the air in large spaces (up to 140,000 cubic feet) to a MERV-19 standard and eliminates 99.9999% of all pathogens in the air. The Icon does not omit any chemicals, ions, hydroxyls, or ozone into the surrounding air.
