## A THRIFTY, SUPERIOR CLEANING SOLUTION

A readily biodegradable, very low toxicity and VOCs, environmentally responsible purpose cleaner. Safely and thoroughly performs all cleaning applications including removal of heavy grease and soil. This moderate foam formula leaves a clean, film free surface, making it the ideal product for scrubbing and recoating without the use of harmful chemicals, such as: phosphates (promote algae blooms), EDTA (carcinogen) and NPE (harmful biodegradable intermediate). When used as directed, this general purpose cleaner aggressively removes embedded soils and scuffs in the top layers of floor finish, and prepares the surface for re-coating with minimal rinsing required.
