COLLAGE REHABILITATION PARTNERS

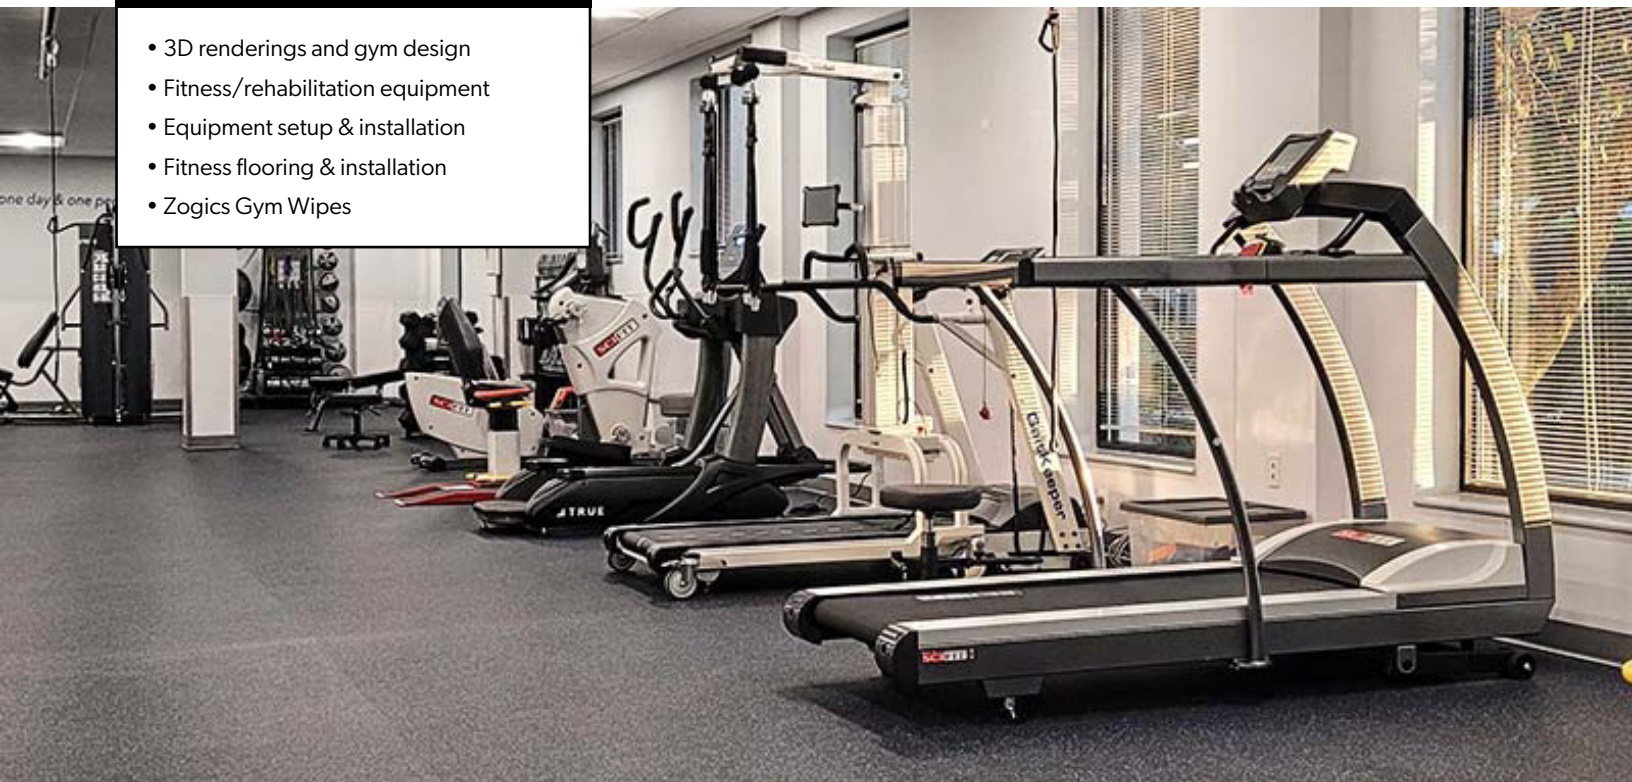

Paoli, PA

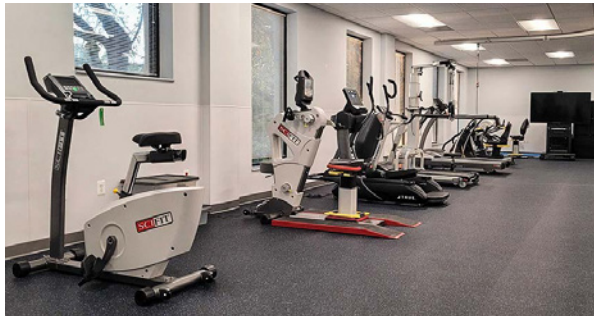

SERVICES PROVIDED BY ARDENT FITNESS:

- 3D renderings and gym design
- Fitness/rehabilitation equipment
- Equipment setup & installation
- Fitness flooring & installation
- Zogics Gym Wipes

Since 1984, Collage Rehabilitation Partners has provided comprehensive post-acute rehabilitation for those suffering from brain injuries and supported living in residential and non-residential settings. These settings differ in size, intensity and staffing, based upon the specific needs of who they serve. Ardent Fitness was recently selected to upgrade the rehabilitation fitness facilities at their cornerstone facility in Pennsylvania, and to be a national partner serving the growing family of Collage Rehabilitation centers nationwide.

From brand new gym flooring to treadmills, balance equipment and more, Ardent Fitness helped Collage Rehabilitation create a welcoming fitness environment to help patients along their road to recovery.

SciFit & NuStep Rehabilitation Equipment

Fitness provided several pieces of fitness equipment designed for use in physical therapy and rehabilitation settings from SciFit and NuStep—both leaders in creating exercise products for clinical use.

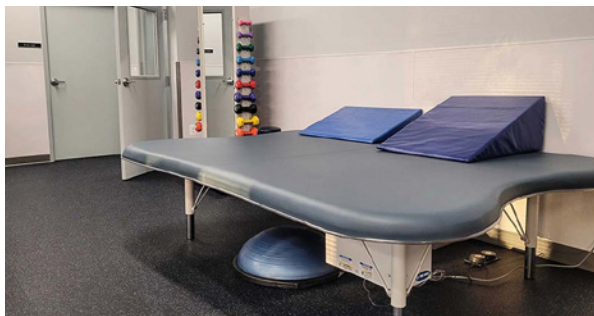

The MP 4.0 Multi-Station

The MP 4.0 provides 5 work stations for a variety of exercises: Leg Extension/Leg Curl, Upper Body routines, Low Swivel Pulley, Adjustable Cable Column, and a Leg Press.

Versatile cardio workouts with new ellipticals

Collage Rehabilitation's new elliptical combines stepping, elliptical strides, and running all in one machine.

The right products to support effective patient rehabilitation

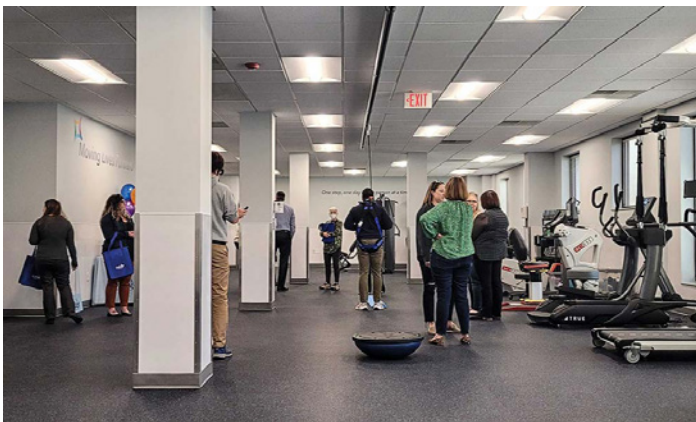

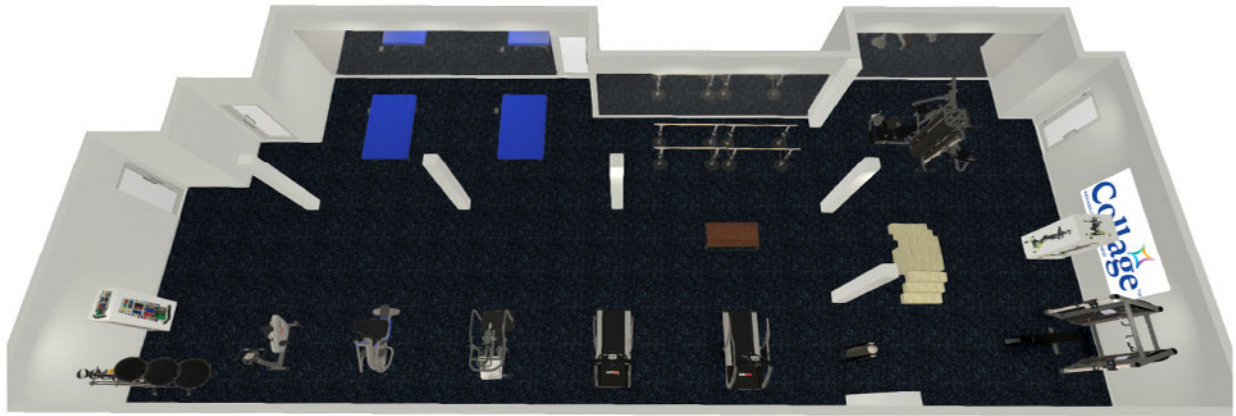

Along with fitness and exercise equipment, Ardent Fitness supplied adjustable tables for rehabilitation work and a dumbbell pack featuring a full body mirror on the rack exterior.

Functional training for successful rehab

Functional trainers allow users to complete dozens of upper and lower body exercises. Unique vertical columns adjust and rotate 360° to allow unrestricted movement for any type of exercise.
