

# Efficacy

Independent lab testing has proven Waltz D to be effective in hard-surface disinfection.

- Eliminates Bacterias, Viruses & Fungi
- Environmentally Friendly; Biodegradable
- Non-Toxic, Non Flammable
- EPA Registered & FDA Approved

Microorganism	Classification	% Reduction
Staphylococcus aureus	Bacteria	> 99.999%
Pseudomonas aeruginosa	Bacteria	> 99.999%
Salmonella enterica	Bacteria	> 99.999%
Escherichia coli (incl. H1S7 )	Bacteria	> 99.999%
HINI (swine flu)	Virus	> 99.999%
Norovirus	Virus	> 99.999%

## Hypochlorous Acid Technology

Hypochlorous Acid (HOCL) was discovered centuries ago as a germ-killing agent! HOCL is created by combining water and salt through our patent pending electrolyzing process to produce Waltz D. Waltz D is EPA registered and FDA approved hard surface disinfectant that not only disinfects but sanitizes and deodorizes.
