

Touch-Free Automatic Bulk Dispenser Assembly & Operation Instructions

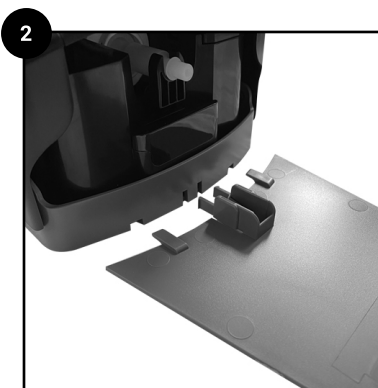

What's included:

- 1 x Touch-Free Automatic Dispenser
- 1 x Drip Tray
- 1 x Dispenser Key
- 4 x Wall Anchors
- 4 x #8 x 3/4 Screws

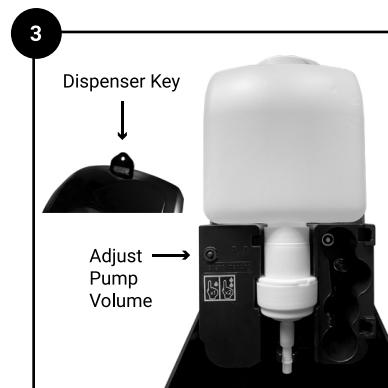

Unpack all components. Dispenser ships fully assembled. Mounting hardware is included (dispenser key, four wall anchors, and four screws).

Install the drip tray

Squeeze the middle tab of the dispenser tray, and insert the tray tabs into the bottom of the dispenser. Tray will snap into place.

Using the dispenser key, open the front of the dispenser. Inside is the refillable tank and battery placement (4 C batteries). Install batteries and replace battery cover.

To adjust pump volume: Click the button once to dispense 1 pump. Click the button twice to dispense 2 pumps.

For mounting on wall

Remove the refillable bottle. Locate the four mounting holes on the dispenser. Use the wall anchors and screws provided to mount to the wall.

NOTE: We recommend mounting the dispenser at least 5" above any surface.

For mounting on table stand

To mount on the table stand (sold separately), use the double-sided tape already affixed to the back of the dispenser. DO NOT use the screws for the table stand assembly.

How to refill

Open the dispenser with the dispenser key. Remove the refillable bottle and remove the bottle lid. Fill container with desired liquid. Reseal with lid, and place back into dispenser.

Indicator Light:

LOW BATTERY:	Light blinks RED slowly when batteries need to be replaced
SHUT DOWN:	Light blinks RED quickly to warn dispenser will shut down
FAULT/ERROR:	Light blinks RED and GREEN together to indicate an error with dispenser
